

THE SCARLET COLOUR 'INFECTS' THE WORLD

Real Murcia is more than just a football club, it is a centenary feeling, and those who support these colours are proud of having more than 21.000 new shareholders from 94 different countries all over the world.

We are aware that these new shareholders have decided to participate in this endeavour mostly as a matter of solidarity, in order to help us to avoid the loss of our beloved football club. But the huge wave of friendliness that has reached every nook and cranny of the globe has exceeded the most ambitious of our expectations.

I have to confess that when the new administration took over, barely a month ago, our club was close to bankruptcy. However, we refused to throw in the towel. We stood up and appealing to our scarlet colour and feeling, and aware of the responsibility we had taken, we decided to fight to get this dream going.

The reaction of the people of the Región de Murcia was immediate, but furthermore, the 'Scarlet infection' spread across every room of the football world. Football clubs amplified our S.O.S. all over. Our friends from Italy, the UK and Hungary, but also those in more distant countries such as Argentina or Australia came forward and offered their generous helping hand.

The reason for this tidal wave couldn't be just economic or because it was something that it suddenly became trendy on the Net. I honestly think that when you feel the colours of your football club in your heart, when you believe in a dream, in Real Murcia's dream, you can transmit that feeling to those that agree that football is a matter of feelings. It is a matter of passion for your colours.

I have only two other things to say. The 'Familia murcianista' welcome you all with open arms. Now you are part of a club with more than a hundred years of proud history. Just enjoy it. But also, be aware of the honour of carrying Real Murcia's name wherever you go.

And finally, a word of thanks. Thank you so much for your generosity. Thank you for becoming our brothers in colours. We are now 21.000 brothers in colours.

As a doctor myself, I think I can say that Real Murcia are getting back on track, are starting to recover. And this couldn't have been possible without you and your very generous contribution.

And now, just to finish I would like you to join us in our chant:

'¡¡¡ HASTA EL FINAL, VAMOS REAL !!!'
